SIGNIFICANT CASES

Sucden Financial Limited v TMT Metals AG & Ors [2024] EWHC 1051 (Comm)

Appeared for the First Defendant, in a summary judgment application in a claim for over \$6.6 million in a dispute arising from a metals trading facility. Mr Justice Picken considered the circumstances in which the

prevention principle applied, in the context of the First Defendant's argument that it had been prevented from paying the sums due by being forced to close its open nickel positions, as well the scope of the broker's contractual discretion to make a margin call.

Shipley and anor v Spitfire Capital Ltd [2023]

EWHC 1816 (KB)

Appeared for the successful applicant, Senior Master Fontaine set aside an order for pre-action disclosure, after considering how to apply the jurisdictional requirements in CPR r.31.16 where the prospective claimants had not yet particularised their claim. The court held that the jurisdictional requirements of the rule were not met, and if that was wrong it would not be appropriate to exercise the court's discretion in favour of the prospective claimants.

Chelfat v Hutchison 3G UK Ltd [2022]

EWCA Civ 455

Sole counsel for the Respondent, in an appeal concerning the expiry of limitation where a claim form is to be served out of the jurisdiction without permission. The Court of Appeal held that breach of CPR r.6.34 does not prevent the claim form being issued.

Kuznetsov v Amazon Services Europe SARL [2019]

EWCA Civ 964

Sole counsel for the Appellant, in an appeal concerning the court's jurisdiction to set aside a judgment some 15 months after it was entered, where the Respondent had not attended the hearing. The Court of Appeal found that there was such jurisdiction, because the normal 14 day period within which to make such an application could be extended under r.3.1(2)(a).
